

CANDIDATE FOR BIGHORN-DESERT VIEW WATER AGENCY

NAME: JUDY CORL-LORONO

OCCUPATION: Caregiver

I left the resort industry to take over management of the Salvation Army Thrift store in Yucca Valley 4 years ago. I then chose to become a caregiver here in Landers. Service to the people and the community has always been a priority of mine.

I started attending BDVWA meetings, special committee meetings and Mojave Water Agency Meetings when I moved into the service area to learn more about the state of our water supply.

We need a Board of Directors which shares a common vision in order to move forward to meet the water needs of the community. Supply and quality is the highest priority in this drought and earthquake prone desert. Effective planning has been stonewalled by directors with a personal agenda. As a BDVWA customer I want to see the Agency protects our water rights and service.

I believe in honesty and openness in public office. The Brown Act is not just a law for BDVWA to abide by; it is a necessary set of rules for a transparent government agency. I wish to see our agency grow and prosper and service remain high in the future.
